📁 Professional Experience

Software Engineer, Echemonic Systems Nov 2025 – Present

- Refactored a microservice utilizing Clean Architecture and Domain-Driven Design principles, making the code much more readable and easy to test.
- Utilized RabbitMQ to orchestrate service communication and implemented dead letter queues and manual acknowledgement to ensure communication reliability across distributed systems.

Software Engineer, Eskalate 📄 Mar 2025 – Nov 2025

- Delivered a production-grade Task Management API 📄 with Clean Architecture, secure authentication, and RBAC for scalable enterprise use.
- Led a team of **5 backend developers** to build the backend of an **AI-powered blog platform** 📄, enhancing user experience by delivering real-time AI suggestions and content improvements.
- Directed a **15-member cross-functional team** (web, mobile, and backend) to develop an **AI-driven social media content generator and auto-poster** 📄, reducing manual effort in creating videos, images, and captions.
- Engineered FastAPI + Celery pipelines with LangChain & Gemini, automating media workflows and cutting content turnaround time by **4%** through the use of async processes.

Backend Software Engineer, Gumiapps 📄 Jan 2024 – Feb 2025

- Built, deployed, and tested production-ready RESTful APIs with Django & PostgreSQL, powering core features for a pharmacy SaaS across web and mobile.
- Strengthened security with authentication, RBAC, and rate limiting while optimizing database performance for faster, cleaner queries.
- Developed a CRM module and custom gift-card feature, boosting client engagement and retention by 5% in 2 months.
- Developed a CI/CD pipeline to automate testing, linting, and AWS deployments using Zappa 📄, reducing manual checks and cutting deployment time by over 12%.

Web Developer (Freelance / Contract), Peniel International Church 📄 Feb 2023 – Dec 2023 | Addis Ababa, Ethiopia

- Customized and launched a responsive fundraising website using React.js, Tailwind, and Framer Motion.
- Enhanced donor experience with a mobile-friendly interface and integrated Chapa 📄 for secure donations from 30+ countries.
- Boosted online contributions by 40%, achieving **35% of the fundraising goal** within the first month.

🎓 Education

BSc Computer Science, Addis Ababa University 📄 Sep 2021 – Jun 2025

- In 2025, Addis Ababa University was ranked **among the top 20 universities** 📄 in Africa out of 1,104 institutions.
- **Relevant Coursework:** Advanced Database Systems, Networking and System Administration, Object-Oriented Programming, Design and Analysis of Algorithms.

📁 Projects

SocialSpark, AI content generator for Instagram and TikTok 📄 Aug 2025 – Sep 2025

- Created a scalable FastAPI backend powering AI-driven content generation workflows.
- Integrated the Gemini API and developed an AI video generation pipeline with S3-based storage, reducing manual effort and improving asset accessibility.
- Containerized services with Docker, cutting setup time from 6 to 2 minutes and simplifying external integrations.

VERSEwise, RAG-Based Chatbot (Hackathon Winner) 📄 Oct 2024 – Dec 2024

- Built a Flask CMS backend with Flask, while synchronizing communication between services with RabbitMQ and boosting API response time by 6% using asynchronous communication.
- Implemented role-based access control and collaborative commenting, enhancing team adoption and user experience.
- Containerized services with Docker Compose, cutting environment setup time from **8 to 3 minutes**.

Wedaj, An AI powered Voice companion 📄 Oct 2025 – Nov 2025

- Designed and implemented the FastAPI backend architecture, establishing a scalable structure that streamlined development for the entire team.
- Developed and integrated speech-to-text, text-to-speech, and language translation features, enabling seamless voice interactions in Amharic and enhancing accessibility for Ethiopian users.

🧠 Skills

Programming Languages and Databases (Python, Go, JavaScript, PostgreSQL, MySQL, MongoDB)

Frameworks and Tools (FastAPI, Flask, Gin, Docker, RabbitMQ, Celery, Linux)

Soft Skills (Team collaboration, Problem-solving, Leadership, Agile Development, Effective Communication)

🏆 Awards and Recognitions

Ethiopian Secondary School Leaving Examination 📄 Feb 2021

- Achieved a score of 599/700, placing in the top **0.03% nationwide out of 845,188** candidates, in an exam where only 3.2% of the candidates passed with more than 50% score 📄.

HackAddis 2025 winner, Indigitous Nov 02, 2025

- Won a Hackathon hosted by Indigitous with my AI powered voice companion application
